1. Claim 14-17, and 24-46 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The applicant's amendments have further limited the acidic buffer solution to more clearly demonstrate the components found in the buffer. The applicant has also more clearly described the specific acids and bases to be used in this buffering system. The applicant's amendments have also specified specific proportions of these compounds.
4. The prior art of record fails to teach this specific buffering system in these specific proportions. The applicant's data further demonstrates that the prior art of record fails to teach the buffering system in the proportions specified in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
